

Information Sheet Suite

Skyesoft™ Information Sheet

September 14, 2025 – Created by Skyesoft™

Purpose

Produce internal knowledge documents that summarize Codex modules, standards, and rules. These sheets guide developers and AI in aligning with the Skyesoft Constitution and explaining it to users.

UseCases

- Developer references for module specifications
- AI explanations of Codex content to users
- Validation of workflows against constitutional standards

Information Sheet Suite

Skyesoft™ Information Sheet

September 14, 2025 – Created by Skyesoft™

Types

Codex Documents:

Purpose: Summarize the integrated legacy markdown documents that form part of the Constitution.

RequiredFields:

Mandatory:

- topic

Optional:

Pipeline:

- Lookup section in codex.json
- Format title + summary
- Render list of included items
- Attach disclaimers (e.g., static snapshot, not dynamic SSE)

Outputs:

- title
- summary
- documentList
- disclaimers

Module Overview:

Purpose: Generate a structured summary of a Codex module (e.g., Permit Suite, Time Interval Standards).

RequiredFields:

Mandatory:

- module

Optional:

Pipeline:

- Fetch module entry from codex.json
- Render title, purpose, features, integrations
- Attach disclaimers (e.g., simplified summary, check full spec)

Outputs:

- moduleName
- purpose
- features
- integrations
- disclaimers
