

Information Sheet Suite

Skyesoft™ Information Sheet

September 18, 2025, 2:40 PM MST – Created by Skyesoft™

Purpose

Produce internal knowledge documents that summarize Codex modules, standards, and rules. These sheets guide developers and AI in aligning with the Skyesoft Constitution and explaining it to users.

Use Cases

- Developer references for module specifications
- AI explanations of Codex content to users
- Validation of workflows against constitutional standards

Rules

- Each page body must begin with a section header.
- If content continues onto a new page, the section header is repeated with '– Continued' appended.
