

# Mobile First Modals

Skyesoft™ Information Sheet

October 1, 2025, 5:41 AM MST – Created by Steve Skye

---

## Purpose

Enable rapid, context-aware task execution via modal windows optimized for mobile and desktop — consistent across shop, office, and field.

## Features

- Adaptive modal forms that adjust per device and role
- AI-linked context insertion for prefilled fields
- Real-time triggers via SSE or One-Line Task
- Inline validation and AJAX/SSE submissions

## Integrations

- One-Line Task Engine
- Real-Time SSE
- Core Database
