🎯 Purpose

Enable rapid, context-aware task execution via modal windows optimized for mobile and desktop — consistent across shop, office, and field.

⚙️ Features

- Adaptive modal forms that adjust per device and role
- AI-linked context insertion for prefilled fields
- Real-time triggers via SSE or One-Line Task
- Inline validation and AJAX/SSE submissions

🔌 Integrations

- One-Line Task Engine
- Real-Time SSE
- Core Database
